

## ADMIRAL HOWARD IN FLAGSHIP SAILS FOR LOWER CALIFORNIA

TO RESCUE AMERICANS THREAT-  
ENED BY YAQUI UPRIS-  
ING THERE.

### COLONISTS ARE IN DIRE STRAITS

Admiral Has Full Discretion—May  
Invade Country Twenty  
Miles.

(Associated Press)  
San Diego, Cal., June 17.—With  
300 marines and her regular crew of  
855 men and officers, the Flagship  
Colorado, Admiral Howard commanding,  
sailed for lower California where  
if necessary they will land a force to  
rescue the Americans who may want  
to leave because of Indian depreda-  
tions. Last reports stated that none  
of the Americans wanted to leave.

Washington, June 17.—That the  
United States is determined hence-  
forth to resort to firm measures to  
protect American life in Mexico is  
indicated in orders forwarded to Ad-  
miral Howard, who is in command of  
the Pacific fleet to proceed to Tobari  
bay, near Guaymas, on the west coast,  
with 300 marines and 300 bluejackets,  
to dispatch this force twenty miles  
inland, if necessary, to protect an  
American colony that is menaced by  
the Yaqui Indians. The American  
colonists whom the government is  
determined to protect are said to be  
in great danger. Admiral Howard,  
who has started for Tobari bay is  
empowered to send the marines and  
bluejackets to the point of the trouble  
without further consultation with the  
Washington officials. It is realized by  
officials that if this force lands on  
Mexican soil, as now seems certain,  
grave consequences may follow. The  
decision to rush a force to Tobari  
bay was reached at conferences be-  
tween state and navy department officials.

### Indians Running Amuck.

Advices from the west coast dis-  
closed that the Indians are running  
amuck in the Yaqui valley and the  
authorities decided that failure on  
the part of this government to act  
promptly might result in a large loss  
of American life. Significance is at-  
tached to that part of the orders sent  
to Admiral Howard directing him to  
take station in Tobari bay instead of  
at Guaymas.

Guaymas, which is the principal  
seaport in the state of Sonora, is in  
control of General Maytorena, a Vil-  
lista commander. There is a possi-  
bility, of course, that the force under  
Maytorena may resist the landing of  
the American jacks and marines  
and there is also a probability in the  
event that the marines and bluejack-  
ets march inland that they may have  
to fight the Yaquis. Resistance on the  
part of the Villistas, which is regard-  
ed as unlikely, would lead to serious  
trouble. A clash with the Indians  
might compel the United States to  
send a larger force into Mexico.  
There are possibilities in the situation  
on the west coast that caused some  
concern in administration circles.

### LITTLE GIRL BRUTALLY KILLED

Body of Missing Cincinnati Girl Re-  
turned After Crime.

(Associated Press)  
Cincinnati, June 17.—The body of  
eleven year old Elizabeth Nolte, who  
has been missing since Tuesday, was  
found today by her mother in the  
rear yard of her home, with her  
throat cut. The body, without cloth-  
ing, was wrapped in a sheet and was  
brought back after the little girl had  
been assaulted and murdered. A ne-  
gro is suspected.

### LOS ANGELES WINS TROPHY

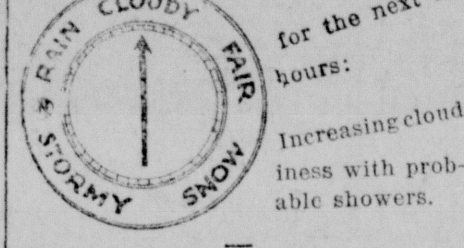

Chicago, June 17.—Lats returns  
indicate that the Los Angeles Country  
club won the Tom Morris golf trophy.

## Doubt That Prisoner Tried To Throw Switch Before Train

At about 5:40 o'clock Wednesday  
afternoon the police were called to  
the Illinois Central depot to route a  
number of tramps who were congre-  
gated in the south end of the yards,  
south of the Northwestern bridge  
and one of the number was alleged  
by the members of a north bound  
freight crew to have been tampering  
with the switch. On the arrival of  
the police at the scene four men  
were found and the man who was  
claimed to have been pulling at the  
switch was pointed out by the train  
crew. He was taken into custody  
by the officers and was brought down  
to the city jail while the others were  
chased out of town.  
The man taken in charge by the  
officers gives his name as "Solie"

## SEVEN HUNDRED SHOT IN MALINES REVOLT

TRAVELER FROM GHENT SAYS  
GERMANS FIRED INTO CIV-  
ILIANS.

### GERMANS TAKE OFFENSIVE AGAIN

Are Pushing Russians Back In Terri-  
fic Battle Along the  
River San

### WAR SUMMARY.

(Associated Press)  
The Over-Seas News agency of Ber-  
lin says: "The Germans along the  
Rawka river, west of Warsaw, have  
taken the offensive. The battle lines  
in Poland, Galicia and Bukovina are  
682 miles long and German and Aus-  
trian forces are attacking the enemy  
in a decisive battle. Big results are  
expected."

### Push Russians Back.

"The Germans are pushing the Rus-  
sians back in the Baltic provinces and  
have occupied additional villages near  
Shavli."

### Great Battle Raging.

Petrograd claims that the Rus-  
sians have regained the ground they  
lost near Przemysl and north of War-  
saw, and that a great battle is raging  
along the River San, with the Austro-  
Germans bringing up additional re-  
inforcements.

### Italians Make Gains.

Rome represents the Italians as  
gaining distinct advantages all along  
the front.

### Turks on Offensive.

Constantinople states that the  
Turks have taken the offensive on the  
Gallipoli peninsula and that they have  
inflicted very heavy losses on the al-  
lies.

### Turks Are Repulsed.

London says the Turks have been  
repulsed in their attempts to recap-  
ture lost trenches.

### Saw Sunken Warship.

A Turkish aviator claims to have  
seen a warship of the Agememnon  
type near the entrance to the Dardan-  
elles with the decks almost submerg-  
ed. London yesterday denied the boat  
had been sunk.

### Two Boats Sunk.

The oil tanker Disaba, which has  
been chartered by the British gov-  
ernment, has been torpedoed and  
sunk, the crew being saved. A small  
British steamer, the Trafford, has  
also been torpedoed. No loss of life is  
reported.

### Killed 700 Civilians.

An Amsterdam dispatch says that  
a traveler from Ghent reports that  
in a revolt on the part of the inhabi-  
tants of Malines last Tuesday, the  
German soldiers fired into the crowd,  
killing 700 civilians, and that Malines  
has since been isolated by an electrified  
wire fence. There is no confirma-  
tion.

### Three Transports Sunk.

An Athens dispatch says that three  
Turkish transports loaded with sol-  
diers were sunk in the Dardanelles  
by British transports.

### Russians Retreating.

According to Berlin the Russians  
have abandoned their positions north  
of Senawa on the River San and are  
retreating.

### Settle Controversy.

It is expected the munitions con-  
troversy will be settled today by the  
introduction in the House of Vol-  
untary enlistment in such work. Re-  
gulation of war profits of employers is  
also contemplated.

## WILL MAKE FOURTH AMERICANIZATION DAY THRU NATION

FOREIGN BORN RESIDENTS TO  
BE SHOWN WHAT AMERICA  
MEANS TO THEM.

### U. S. COMMISSIONER BACKS MOVE

Claxton Urges That All Foreigners Be  
Encouraged to Learn En-  
glish Language.

(Associated Press)  
New York, June 17.—Advices from  
almost every quarter of the country  
indicate that a wide-spread enthusi-  
asm has been aroused among the civic  
leaders over the plan to make the  
Fourth of July this year an "Ameri-  
canization Day." Mayors' committees  
in more than fifty cities, large and  
small, have been appointed and have  
agreed to carry out in part at least  
the ideas of the National Americani-  
zation Day committee, whose head-  
quarters are in this city.

The idea, as already set forth in  
posters and instructive literature dis-  
tributed in mills and factories, col-  
leges and schools and civic and com-  
mercial organizations, is, roughly,  
to round up a great proportion of the  
fifteen million foreign-born residents of  
America on Independence day and,  
aside from the time worn patriotic ex-  
ercises of the day, to imbue newly na-  
turalized citizens and aliens with the  
full sense of what America means to them.

The manner in which the Ameri-  
canization day program will be car-  
ried out will vary somewhat in dif-  
ferent cities, but a large number of  
them will follow the suggestion of the  
general committee as to holding a re-  
ception to which the foreign-born,  
whether citizens or not, will be in-  
vited to meet their city officials and  
other prominent citizens. Arrange-  
ments are being made in a number of  
cities for the use of auditoriums with  
large platforms, on which the most re-  
cently added citizens will have special  
seats of honor. A special feature of  
the occasion will be the recitation in  
unison of the oath of allegiance to  
the United States, as the American  
flag is unfurled. Pageants and patri-  
otic motion pictures will be a part of  
the program in some cities.

The United States Commissioner of  
Education, O. P. Claxton, who has is-  
sued an official circular endorsing the  
movement, says among the things the  
speakers on Americanization Day  
should emphasize are: "That every  
foreign speaking person in America  
should learn the English language by  
attending the public schools, because  
the English language is the master  
key to American opportunities and  
life, and the first step to real citizen-  
ship; that every illiterate immigrant  
should learn to read and write so that  
he can read American newspapers and  
attend personally to his business mat-  
ters; and that adults and children, na-  
tive and foreign born, be given civic  
training in both the evening and day  
schools, so that everyone in our coun-  
try will understand the functions of  
our government, the principles of  
democracy and for what America  
stands."

## FIND OLD TIN BANK IN DARK BASEMENT

ANCIENT STRONG BOX UNCOVER-  
ED IN CELLAR OF SODA  
GRILL TODAY.

While cleaning out the basement at  
the Soda Grill this morning workmen  
uncovered an old tin can, rusted  
through and broken, which gave evi-  
dence of having at one time been used  
as a bank, and there was also slight  
evidence that some paper money had  
been left in the can when it was bur-  
ied, for it was found covered with  
earth in a dark corner of the cellar.  
The can was equipped with a padlock  
which had not been opened and a slit  
had been cut in the cover to admit  
money dropped into it.

### FIVE HAD PERFECT RECORDS

Pupils of Bend School Were Neither  
Absent Nor Tardy This Year

A number of the rural schools  
have numbered in their enrollment  
pupils who have been neither absent  
nor tardy during the school year  
just closed. This is certainly speak-  
ing well of the boys and girls who  
have braved all kinds of weather so  
as not to miss any lessons. Accord-  
ing to the report just filed by Miss  
Dora Breed, Bend school she had five  
members of her school who have a  
clean record for the year. They are:  
Margaret Bennett, Enid Bennett,  
Pearl Beatty, and Mahel and Wayne  
Williams. Margaret Bennett has  
the record of not having been tardy  
or absent from school for four years.

### PTOMAIN POISONING

Perry Hobbs was taken ill while  
at work this morning and the attend-  
ing physician reports he is suffering  
with ptomaine poisoning. It is not  
known what may have brought about  
the attack.

## Women Whose Husbands Are Prominent In German Crisis.

Photo by American Press Association.

In the accompanying illustration, left to right, are shown Princess Hatzfeldt and Mrs. Dernburg just before they sailed for Germany. Princess Hatzfeldt's husband is the man next in authority to Count von Bernstorff in this country. He is supposed to enjoy the supreme confidence of the kaiser. Mrs. Dernburg is the wife of Dr. Dernburg. Dr. Dernburg was called the kaiser's spokesman in this country. Following the sinking of the Lusitania an interview he gave caused a lot of adverse criticism. After that Dr. Dernburg didn't furnish much copy for the newspaper reporters. Both of the women were as silent as their husbands when they were asked for an inter-  
view prior to the sailing of the ship.

## DEKALB MAY SECURE STATE POULTRY SHOW

DIXON FANCIERS ARE WORKING  
WITH DEKALB ASS'N TO  
THAT END.

The poultry fanciers of DeKalb are  
working hard to secure the State  
Poultry show for that city on January  
3 to 8, 1916. Certain requirements  
must be met and the local association  
is working to fulfill all these require-  
ments, and it is hoped to know what  
can be definitely done in the next few  
days. Since the State association was  
organized four years ago all of the  
shows held under its auspices have  
been held at Springfield but the fan-  
ciers of the northern part of the  
state have clamored for a big show  
in this section and so next year the  
association has consented to hold the  
show in one of the northern counties.  
The DeKalb association has been at  
work for the past several weeks and  
the chances are that their hopes will  
be realized. Wm. W. Hyde, formerly  
of this city, is secretary of the asso-  
ciation and the Dixon fanciers would  
be pleased to have the show next year  
at DeKalb, on account of more con-  
venient location.

### BACKUS ASSISTED DRUM CORPS

Went to Geneva This Morning to  
Play at Dedication

The old soldiers of Kane county  
assembled at Geneva today to dedi-  
cate a \$25,000 monument to the  
memory of their departed comrades.  
A very large crowd from all over the  
state was expected. At noon a basket  
lunch was to be held on the court  
house and the afternoon program  
was open at 1:30 with the unveiling  
of the monument. Rt. Rev. Samuel  
Fallows, bishop of the Reformed  
Episcopal church and Past Depart-  
ment Commander of the Grand Ar-  
my of the Republic in Illinois, was  
the orator of the day. The Aurora  
fire and drum corps furnished the  
martial music of the day. Luther  
Backus of Dixon assisted the corps.

### GREYBILL EARNS GRATITUDE

Caretaker Greybill of Lowell park  
has won the gratitude of all vehicle  
owners who drive into the park by re-  
moving the big clump of bushes  
which grew along the road at the  
turn near the well. These bushes ob-  
structed all views around the turn,  
and their elimination greatly increas-  
es safety of travel in the park.

## PREPAREDNESS FOR WAR PROVOKES IT, SAYS BRYAN

ASSERTS THAT OCEANS PROTECT  
US AND WE HAVE MEN FOR  
DEFENSE

(Associated Press)  
Washington, June 17.—Asserting  
that preparedness provokes rather  
than prevents war and that the up-  
heaval in Europe was a result of a  
false philosophy that "might makes  
right," Bryan, in his second state-  
ment on "The Causeless War," sub-  
mits an argument against military  
preparedness by the United States  
and praises the courage of President  
Wilson, in this international emer-  
gency.  
"We are protected by thousands of  
miles of ocean, have men with whom  
to form an army of defense. We are  
ever attacked, and have more money  
than we would have had if the sur-  
plus earnings of the people had been  
invested in armament," the state-  
ment continues.

## BISHOP MULDOON TO CONFIRM CLASS

AT ST. PATRICK'S CHURCH

Goes to Sterling in the  
Evening.

ford diocese, will be in Dixon for a  
few hours Friday afternoon and will

Columbus in automobiles. They will

A class of about seventy will be  
confirmed at the exercises, which will  
be attended by a large delegation of  
visiting priests from Sterling, DeKalb,  
Rockelle and other surrounding  
towns. Bishop Muldoon will confirm a  
class at DeKalb in the morning, re-  
peat the ceremony in Dixon in the af-  
ternoon, and again at Sterling in the  
evening. A delegation from Dixon will  
accompany him to Sterling.

## LIFE BOATS WERE NOT FREE ON SHIP

CAPTAIN OF LUSITANIA GIVES  
VITAL TESTIMONY AT  
INVESTIGATION.

(Associated Press)  
London, June 17.—The investiga-  
tion into the sinking of the Lusitania  
progressed today with Captain Turn-  
er on the stand. He testified that the  
collapsible boats were not free from  
the docks when the ship entered the  
war zone because he feared they  
would slide about on the deck and  
sweep passengers into the sea. Some  
of the witnesses had testified that no  
life boats were available on the decks  
during the voyage. One passenger tes-  
tified that he had helped launch a life  
boat loaded with women and children,  
unassisted by the crew. The boat was  
leaking badly, he said and sunk with  
its occupants.

Injuries From Mishap.

Jacob Wagner Sr., of 916 Second

ing, while on his way to the business  
section of the city, and because of  
his age the fall incapacitated him. It  
was reported this afternoon, however,  
that he had suffered no serious in-  
juries and that he was resting quite  
easily.

### TRAIN OF THIRTY-TWO COACHES

and were pressed into the suburban  
service during the extra rush of busi-  
ness during the two days tie-up of  
the street car service in Chicago by  
the strike of the conductors and mo-  
tormen.

## American Government May Determine European Troubles

(Associated Press)  
Philadelphia, June 17.—The Ameri-  
can government may, by its action,  
within the next few days or weeks, de-  
termine the kind of settlement that  
Europe will have after the war, Ed-  
ward A. Filene, representing the  
Chamber of Commerce of the United  
States, declared in an address at the  
League of Peace meeting here today.  
This settlement, he said, fundamen-  
tally would be of great importance to  
the peace and prosperity of the United  
States.  
Mr. Filene said: "If America stands  
now for the rights of her citizens on  
the high seas she will help to give the  
world a sound peace. For her rights  
can only be finally vindicated, first, by  
a drastic reform of sea law, which  
means co-operating with other na-  
tions in creating a legislative body to  
frame agreements on such law, and,  
secondly, by just interpretation of  
this sea law, which means an interna-  
tional court."  
Mr. Filene said that while he did  
not think the world could do without  
armies and navies, he believed Ameri-  
ca has it within her power to organ-  
ize forces which are greater than are  
either of these. "These forces," said  
he, "can be summarized in the term  
economic pressure, by which I mean  
the commercial and financial boycott  
of any nation which goes to war with-  
out submitting its dispute to judg-  
ment or inquiry."  
"That boycott could be of progres-  
sive severity. In the first, and what  
would be probably the usual and suf-  
ficiently effective stage, the nations  
forming a league for International  
law and order, would refuse to buy  
from or sell goods to the offending  
nation. If its offense however, were a  
very aggravating one and continued  
despite the first measure, so that ad-  
ditional pressure were needed, the  
nations of the league could practi-  
cally sever all intercourse with it and re-  
fuse to enter into financial or com-  
mercial transactions, refuse to re-  
ceive or send its mail or to clear its  
ships."  
"And then only finally, if such  
measures were ineffective, would mili-  
tary force be resorted to. But my  
plea is that in the first instance econ-  
omic force is clearly indicated, and  
that military force should be resorted  
to only if economic pressure proves  
ineffective."

##### Unique Shower

Mrs. Mark Williams of Palmyra was hostess to a family picnic dinner and miscellaneous shower in honor of Miss Minnie McCleary who is to be a June bride. The picnic lunch was uniquely served on long tables spread in the corn crib which was made festive with branches of red cherries and red and white bells. Following a most enjoyable dinner the guests repaired to the house where Miss McCleary found a table full of gifts awaiting the unwrapping. Many were the funny words of advice accompanying these packages and they were saved for future reference. About forty were present.

##### Entertained for Bride-to-be

Mrs. Hollis Prescott, Mrs. Shelby Cortright, and Miss Hannah Madison entertained Wednesday afternoon at the Hollis Prescott home in honor of Miss Olive Drew of North Dixon who is to be a bride the coming week.

The decorations were in pink and white, peonies being used in profusion throughout the house, where great masses of the pink and white beauties were arranged in bouquets. In the dining room pink festoons were draped from the chandelier to the corners of the table and in the center of the table a huge bunch of the pink and white peonies reflected their beauty in a mirror.

Guessing games and music formed the entertainment furnished for the guests, with refreshments of cream and cake carrying out the color scheme, served in the dining room. During the afternoon the bride-to-be was presented with a large basket adorned in pink and white containing many packages of dainty gifts, a verse of poetry, witty and clever, accompanying each one. These were read aloud by Miss Drew who gracefully expressed her appreciation.

Out of town guests at the shower were Miss Rilla Drew, a cousin of Miss Olive, from Glenwood, Ia., and Mrs. Herbert Drew of Geneseo, Ill.

The invitations have been issued for next Tuesday for Miss Drew's marriage to Dr. John Guttery, a prominent young dentist of Pilger, Neb.

##### Scramble Supper

Miss Ida Ware delightfully entertained last evening at a scramble supper at her home on Palmyra avenue. The guests were the officers of Dorothy chapter, O. E. S., and a few of their friends, twenty-six being entertained. Owing to the uncertainty of the weather, the picnic supper which was to have been served on the lawn, was served in the dining room, which was prettily decorated in pink peonies and roses. The supper abounded in good things and the best time imaginable was had, part of the evening being spent inside and part outdoors and on the porch which was gay with Japanese lanterns.

Music was also enjoyed during the evening, Miss Emma Perry and Miss Marie Southwell furnishing piano duet, while Miss Jean Southwell gave a beautiful vocal solo.

A delicious two course supper was served late in the evening. The home was beautifully decorated in pink and white peonies and the supper table was also done in pink and white, a huge bride's cake forming the centerpiece surrounded by candles in pink roseleaf holders, in number as many as the years of wedded life of the host and hostess. The supper was served by Miss Emma Perry and the two daughters of the host and hostess, Misses Jean and Marie Southwell.

In the course of the evening Bert Dewey, in a clever speech, presented Mr. and Mrs. Southwell with a hand some set of silver, consisting of knives, forks and spoons. Late in the evening the guests departed, wishing the host and hostess many more happy anniversaries.

##### K. B. Aid Picnic

The Kingdom Bend Aid society held their annual picnic yesterday at the Kingdom. Though the morning sky was overcast with threatening clouds, merry hearts gathered and had one of those good times long to be remembered. Both men and women, their families, and their friends, to the number of one hundred, gathered at the Kingdom church and partook of the bountiful scramble dinner, accompanied by hot coffee and lemonade served in the Epworth League rooms of the church.

In the afternoon all assembled on the church lawn in the sunshine and numerous races and games were indulged in. One very very amusing stunt was the rainy day race, in which the participants were supposed to start out in their rainy day paraphernalia, don them, pack them in their suit cases and finish the race. The game of quoits, in which the young ladies evinced equal aptitude with their brothers, was played, and two baseball nines, picked from those present, played an exciting game.

After the game delicious refreshments of ice cream and cake were served, six gallons being consumed by the fatigued crowd.

Music, both instrumental and vocal, was furnished by several of the young ladies before the picnicers disbanded, bidding each other adieu until fall when the Aid will re-commence its sessions.

##### Home Guards Elect.

The Home Guards of the Methodist church met Wednesday afternoon with Miss Josephine Lievan in a social session. The regular program was followed and plans for a picnic in the near future made. Election of officers for the year resulted in Miss Josephine Lievan as president, Miss Esther Winn, vice president; Miss Marjorie Ogden, secretary and Miss Lois Keyes, treasurer, with Miss Helen Eaton to act as mite box secretary. A social hour followed with dainty refreshments in pink and white served by the hostess.

##### Conlon-Miller

The home of Mr. and Mrs. E. E. Miller of Franklin Grove was the scene of a pretty wedding Wednesday evening when their daughter, Miss Katherine, was united in marriage to James Edward Conlon. The ceremony was performed by Rev. Ulrich of the Franklin Grove M. E. church in the presence of the immediate relatives of both bride and groom.

The bride was handsomely gowned in white, and her sister, Miss Ruth, who attended her, also wore white. The bride carried roses. The groom was attended by Harold Kelley.

Mrs. Conlon has always resided in Franklin Grove and vicinity and is a charming, talented young lady. She is widely known for her musical ability, and has often played on the Dixon Chautauqua platform. Mr. Conlon is the son of J. E. Conlon, of north of Franklin Grove and a young business man of that town.

##### Picnic at Assembly

##### A Priceless Idol.

It is a part of the creed of Mohammedans to smash the noses of all idols they may come across. When they invaded India they defaced in this way every Hindu god. A figure of Vishnu cut in green jade was buried in the bed of the Ganges during this invasion and is now preserved in a temple in Benares. It is the only perfect image left of all the old idols, and its sanctity is such that the priests at Allahabad have offered for it its weight in gold, together with two magnificent rubies, formerly the eyes of Buddha. But they cannot buy it.

## TRIAL BY NEWSPAPERS.

Former President Taft, among his suggestions to the New York constitutional convention, included one against "the practice of trial of cases by newspapers," which he declared was one of the greatest evils we have today.

"This practice," he said, "creates an atmosphere which it is hard for the court and jury to overcome. My suggestion would be that the constitution modify the freedom of the press provisional to the extent, at least, of authorizing the legislature to pass laws to protect the administration of justice against the abuse of the press."

In the form here quoted such limitation of the freedom of utterance might itself be subject to abuse, but doubtless Mr. Taft would favor the most cautious phraseology in any constitutional change of so delicate a matter. Newspapers which oppose any restriction upon the freedom of the press are suspected of thinking less of the public interest than of their own. Yet citizens will do well not to give too much weight to this suspicion, for newspapers are highly competitive and a law restricting one would restrict its rival. On the other hand, newspaper men have given more thought to the nature and effects of publicity than most laymen and are more genuinely aware of the necessity of press freedom to political freedom and social progress. Their jealousy of restrictive laws is by no means merely self-interest, but expresses a civic consciousness of the dangers of restriction.

Yet conscientious newspaper men also realize the evils of irresponsible publicity and other perversions of the press' high responsibilities, and Mr. Taft has hit upon a gross evil which newspaper men of this type deplore. If the freedom of the press can be safely limited, certainly it would be well to limit it in this direction.

But the scope of restriction should be most carefully safeguarded and not left to the hasty and often irresponsible agency of legislators.—Chicago Tribune.

## TO IMPROVE THE DIXON BRIDGE.

The Board of Supervisors of Lee and Ogle counties are proposing to rebuild the floor of the Grand Detour bridge, which is on the Lee-Ogle line, with creosote blocks instead of planking. The planks have worn through and the floor is in dangerous shape at present.

The creosote blocks cost more, but they are worth twice as much, for they will last the life of the bridge and the planking has to be replaced every three or four years. The blocks are in use on the Oregon bridge over Rock river and they are giving splendid satisfaction.

Why would it not be a good idea to use the wood blocks to rebuild the Galena avenue bridge at Dixon? The floor of this bridge is in miserable condition as it is and the city may well be ashamed of it. Furthermore, it is never in very good condition, for parts of the bridge wear out quicker than others and a continual patching is going on which makes the bridge harder to travel over than if it all were worn at once. Planks of original thickness laid among slightly worn planks make an uneven roadbed and it is enough to make one's "upper set" jar loose to ride over the bridge as it is now.

If these creosoted wood blocks could be laid on the Dixon bridge the road would be smooth and fine with no more expense as long as the bridge lasted. We recommend this for the investigation of the city commission.

## JOHN BARLEYCORN, CHAUFFEUR.

John Barleycorn is a bad chauffeur. His hand shakes, his knees wobble, his eyesight is poor, and his conscience half asleep. Any anyone who permits this reckless driver to sit at the wheel of an automobile is a menace to life.

That is why little sympathy is felt for the Baltimore man just sentenced to two years in the penitentiary because, while intoxicated, he ran down and killed a woman. And if the convict fancies himself the victim of a great injustice he should compare his fate with that of the woman whose neck his carelessness broke.

One does not have to be intoxicated to deserve prison for reckless driving. Nor does one have to be rich, as the Baltimore man is. Indeed, the plight of this man should have an equally sobering effect upon all careless drivers, tipplers, teetotalers, plutocrats and poor.—Philadelphia Telegraph.

## AT THE COUNTY HOME.

Indigestion was the popular pastime Wednesday afternoon and evening among the supervisors, county officials and newspaper men who were the guests of the County Home Committee and Mr. and Mrs. Clyde Wieher at the Lee County Home Wednesday noon. Those who were privileged will be just as eager to go next year, however.

The visitors at the Home found everything in splendid condition and the new building being erected by W. J. McAlpine for the county is progressing as nicely as the weather will permit.

Mr. and Mrs. Clyde Wieher, the capable managers of the County Home, are eagerly awaiting the time when they can move their charges into the new quarters where conditions will be so greatly improved and sanitation and safety will be assured.

Mayor Bill Thompson of Chicago would be a good peacemaker to send abroad. He squared up the Chicago strike trouble in short order.

The republicans of Chicago are being vindicated as to their taste and judgment in electing William Hale Thompson as Mayor. He is making good.

Once in a while we get a nice bright day just to make us feel badly and show us how really rotten the weather usually is this year.

The Assembly cottages are filling up rapidly and the cottagers are preparing to enjoy a season in the prettiest spot to be found in the middle west.

## THE JUNE BRIDE.

Fair bride of June, white bride of June, as lovely as a summer moon, the sweetest pebble on the beach, a joy, a vision and a peach! A truth it is—I know not why—that brides of August and July, of gusty March and placid May, must yield to you the right of way. All brides are daisies, when one tries their divers charms to analyze; they all are nature's noblest growth; when I see two I want them both; but still there's something out of tune, when brides loom up outside of June. The month's ordained and set aside and dedicated to the bride. In June the year is blithe and fair, and has no silver in its hair, the skies are bright, the roses bloom, the winds are soft, there is no gloom, and here's the newly wedded belle, who fits into the picture well! Ah, would it might be always June, when birdlets sing and zephyrs croon; but zephyrs fall and tempest shrieks, and roses fade, and so do cheeks; the fleeting summer day departs, and Father Time will test all hearts. And when your bloom is gone away, may you be just as bright and gay as you are at your bridal noon, oh, bride of June, fair bride of June!

## CURRENT COMMENT

Bloomington Pantagraph: While the people are admonished to keep cool in the present crisis with Germany they are not wanting in advice to the administration. So many possible ways of procedure are being pointed out to President Wilson and the results in each case so carefully outlined that he would be confused in trying to decide between them. Meantime it is presumed he is formulating some plan of his own, taking advice from those most competent to give it. The freedom of advice we suppose goes with the freedom of speech. The entire propriety of it at all times is another question.

Kankakee Republican: Kansas is already calling for men to work in the wheat fields, although harvesting will not commence until the middle of June. The farmers promise that work will continue until threshing is finished late next fall. Kansas can take care of a good many of the unemployed this season. The problem of getting harvest hands in Kansas is a serious one every year and this season promises to be harder than ever, for the wheat crop is estimated at 200,000,000 bushels.

Paris News: At last it has been ascertained why it is that the school bells have not been tolling in the early morn'g of late. Some chronic grouch had registered a complaint with the school board that the bells at 8:15 disturbed him in his sleep. Great country this.

Galesburg Republican-Register: Missouri has just been celebrating a Made in Missouri day and this suggests that a Made in Illinois day would not be an inappropriate thing.

Cincinnati Tribune: The retirement of William Jennings Bryan from the state department at Washington removes at a peculiarly critical

good name and welfare of the nation. His record as premier of the Wilson cabinet clearly shows the danger of placing a day-dreaming theorist in charge of vitally important government affairs, in which perforce, he must measure with the ablest, shrewdest and most practical men in the world.

Pittsburgh Post: When Mr. Bryan sent his letter of resignation to President Wilson we may well believe that it caused him no little grief, and when the chief executive accepted it so promptly it was with sincere pride, as some would have us believe, but would go much further than some men to attain it. With the president just as firmly in favor of peace as patience had ceased to be a virtue, and as head of the nation and administration his views must prevail.

## INFURIATED COW ATTACKS CHILD

The five year old son of Mr. and Mrs. George Sergeant at Walnut was attacked by an infuriated cow Sunday and had a narrow escape from fatal injury. The child in company with an older brother, was crossing the pasture of Frank Nellick in which the cow was grazing.

Boys of the neighborhood, it is reported, had been teasing the cow, which has a calf, and when she saw the children walking toward her she charged upon them. The younger child was unable to run fast enough to escape and the cow knocked him down and trampled upon him. One of his ears was almost torn off and he was badly bruised.

The screams of the older boy attracted Mr. Nellick and he rushed to the rescue. He drove the cow away and picked up the boy and carried him home. A doctor was called and the wounds were dressed.

Dr. Edgar was in Chicago Tuesday and Wednesday.

WAS ONE OF FIRST WHITE CHILDREN BORN IN AMBOY TOWNSHIP

Amboy, Ill., June 17: Special to The Telegraph—Fred D. Searles, one of the first white children born in Amboy township, passed away at his home here last evening, death being caused by spasmodic asthma. ## PARTY ORGANS STILL VERY ANTAGONISTIC

### COALITION CABINET IN ENGLAND HAS NOT BROUGHT ANY TRUCE.

London, June 3.—Correspondence of the Associated Press.—The coalition cabinet has apparently not arranged any political truce between the party organs, which are quite as antagonistic as before the joint government was formed. Neither party appears satisfied with the selection of the other side.

No sooner was the appointment of Dr. Christopher Addison announced, as Parliamentary Secretary of Munitions to take the most recent instance than the Globe, a conservative organ, asks whether a man who had been professor of anatomy and medical lecturer and writer so many years before entering parliament is capable of bringing business methods to bear on the organization of war supplies under Lloyd George.

HOLD.—"We had hoped when the new government came into existence," comments the Globe, "that the era of criticism had been brought to an end and that we should all be able to work together for the common good with complete confidence in one another. But such an appointment as that of Dr. Addison to an office of vital importance is like a douche of cold water on these aspirations."

### FLINN'S COMPANY IS BROKE

Bull Moose Boss' Contracting Concern Cannot Pay Debts.

New York, June 17.—A voluntary petition in bankruptcy was filed in the United States District court against the Pittsburgh Contracting company, of which ex-Senator William Flinn, the Bull Moose boss of Pennsylvania, is said to be the backer. The corporation directory records the fact that George H. Flinn is president and William A. Flinn vice president of the concern which was incorporated in Delaware six years ago with a capital of \$1,000,000. No assets or liabilities are given in the petition.

The company had several contracts on the Catskill aqueduct which were finished successfully. Since then a number of judgments have been obtained against the company for injuries to workmen and several suits of a different nature were filed in the supreme court.

A schoolboy assigned to prepare an essay on ducks submitted the following:

"The duck is a low, heavyset bird, composed mostly of meat and feathers. He is a mighty poor singer, having a coarse voice, caused by getting so many frogs in his neck. He likes the water and carries a toy balloon in his stomach to keep from sinking. The duck has only two legs and they are set so far back on his running gears by nature that they come pretty near missing his body.

"Some ducks when they get big have curls on their tails and are called drakes. Drakes don't have to set or hatch, but just loaf and go swimming and eat everything in sight. If I was to be a duck, I would rather be a drake."

### Not His Affair

The old horse, who interfered badly, and his driver, Sam Winters, had undeniably seen better days.

Sam had just finished his day's work of peddling, and was driving through a thickly populated thoroughfare.

"Say, mister," sang out a would-be wit from his post on the corner, "that there horse of your'n is interferin' to beat the band."

Sam glanced around slowly and in a mild, unconcerned manner queried: "He ain't interferin' with you, is he?"

His Plan to Mutualize  
Equitable Near Completion.NEBRASKAN WAS HIT  
BY GERMAN TORPEDOReport on Damaged U. S. Ship  
Bears Out Prior Theory.

Washington, June 16.—The state department has received from Ambassador Page at London a complete report on the case of the American steamship Nebraska damaged by a mine or torpedo off the Irish coast last month.

There is reason to believe that this report supports the theory that the Nebraska was the victim of a torpedo, presumably from a German submarine.

The report includes not only the testimony of those on board the Nebraska, but also the results of examination of the ship in dry dock at Liverpool by American naval experts attached to the American embassy. With the report are photographs and what are regarded as important pieces of metal found within the Nebraska in the region of the disaster.

Since the examinations were made at Liverpool it has been known here that all the experts, British and American who were concerned in the investigation and saw its results, were satisfied that the Nebraska was struck by a torpedo. It is presumed the results and exhibits bear this out. Those known to have an opportunity to see the pieces of metal say that a torpedo and not a mine caused the damage.

The attack followed a denial by Day of charges of familiar advances on Pelzer's wife, lay member of the First Lutheran, followed later by like charges by Miss Maggie Betz, another member.

U. S. UNINFORMED  
AS TO DR. MEYERExplanation by German Embas-  
sy Is Expected.

## MATTER IS EXCITING INTEREST

If Washington Has Been Hoaxed Into  
Giving Letters to Get German Spy  
Home, as New York Story Says, It  
Will Produce Ugly Situation With  
Von Bernstorff.

Washington, June 17.—It is officially declared that this government has no information supporting published charges that there was gross fraud in connection with the recent dispatch of a special emissary of the German ambassador to Berlin. Reports that the state department had been imposed in this connection excited great interest here, but thorough inquiry in official and diplomatic circles developed that no evidence is yet at hand to confirm these charges.

The state department has not taken any steps toward investigation of these reports. It will instead observe the situation for a time and see what develops. The explanation is that the German embassy will of its own accord present due assurances in the matter.

It is admitted in official quarters that the situation would be embarrassing if it should be proved that deception was practiced. It is clearly indicated that if it should be established that the man whom the state department assisted in getting to Germany under the name of Meyer-Gerhard was really some other person, masquerading under that name, the United States would be compelled to take up the matter with the German embassy. If on the other hand it should be proved that, as stated in some published reports, another man, said to be Dr. Alfred Meyer of the munition department of the German war office, sailed with Mr. Meyer-Gerhard as his secretary or companion, officials here would in all probability consider that the offices of this government in connection with Gerhard had been abused.

## German Embassy Criticized.

There is much criticism of the German embassy heard here in connection with these reports because the last six months have brought forth a number of incidents in which it was charged German embassy attaches figured in a way not altogether creditable. It is no secret that but for the graver issues now existing between the United States and Germany the state department would have manifested the displeasure with which it has viewed certain alleged activities of the German embassy.

Neither the state department nor war department has any official knowledge of one Dr. Alfred Meyer, mentioned in the published reports. Search of the German official list showed that he is not registered as a member of the war department or military service, but nothing is thought of this, as in time of war it would be expected that large numbers of civilians would be taken into employment. It is not doubted that the German government has some one in this country keeping a watch on the supplying of war munitions to the allies, as Dr. Meyer is said to have been doing, but no such person is known here in such a capacity.

"WHY WOMEN CANNOT  
SLEEP."

The highly organized, finely strung nervous system of women subjects them to terrors of nervous apprehension which no man can ever appreciate.

The peace of mind, the mental poise and calmness under difficulties, which is necessary for happy womanhood, is only possible when the sensitive feminine organism is in a perfectly healthy condition. If there be any weakness or derangement in this respect no remedy in the world so completely restores womanly health, nervous vigor and capability as the wonderful "Favorite Prescription" invented by Dr. R. V. Pierce. It purifies, heals and strengthens; insures functional regularity; provides physical reinforcement and sustaining power at periods of special weakness and depression.

Quincy, Ill.—"When I felt I needed a tonic, I used Dr. Pierce's Favorite Prescription. I was simply tired out and didn't feel good. I just felt that I must have a tonic which was good for women. I used about two bottles of 'Favorite Prescription' and I shall always praise it because it helped me."—Mrs. Julia Curran, 524 North Fifth St., Quincy, Ill.

POLITICAL TRUCE IN  
IRELAND ENDANGEREDPREFERENCE GIVEN ULSTER  
LEADERS IN NEW CABINET  
CAUSES DISSENSION

Dublin, June 3.—(Correspondence of the Associated Press.) The political truce established in Ireland during the war, is seriously endangered because of the preference given the Ulster leaders in the new coalition cabinet.

Resolutions condemning the appointment of Carson, Bonar Law, and F. E. Smith are being passed in all provinces except in the northern and protestant end of the island. Not only societies and political organizations, but city and local councils join in the protest.

The Kildare County Council unanimously adopted the following:

"We regard with grave apprehension the recent changes in the government of the country, involving as they do the inclusion in place of high power and authority of the most virulent enemy of our people, and a declared lawbreaker. We consider this step as a direct insult to the great majority of Irishmen, and must express our surprise that the leading statesmen in England should sanction such a course at a time when thousands of Irish nationalists are sacrificing their lives to maintain the integrity of the British Empire."

The Granard District Council made a similar protest.

The position of the Irish Parliamentary Party that the political organization in the country should be got ready for any emergency is becoming popular.

SORE, ACHING FEET

Ah! what relief. No more tired feet; no more burning feet, swollen, bad smelling, sweaty feet. No more pain in corns, callouses or bunions. No matter what ails your feet or what under the sun you've tried without getting relief, just use "TIZ."

"TIZ" draws out all the poisonous exudations which puff up the feet; "TIZ" is magical; "TIZ" is good; "TIZ" will cure your foot troubles so you'll never limp or draw up your face in pain. Your shoes won't soon tight and your feet will never, never hurt or get sore, swollen or tired.

Get a 25 cent box at any drug or department store, and get relief.

## DEMENTTOWN DOINGS

Big Bill Thompson of Chicago can be governor of the state if he'll only force the weather man to arbitrate on so durned much rain for about a month.

Here is the rule for the road to happiness: Early to bed, early to rise; cut the weeds and sweat the flies; mind your own business and don't tell lies, and buy from those who do verities."

Cowboys, who have made records busting bronchos, say that the water wagon is harder to ride than any four-legged brute known to mankind.

In a certain village down south there was a physician noted for his reckless automobile driving. One day when answered the telephone a woman's voice asked him if he were going out driving that afternoon.

"No; I hardly think I will have time this afternoon," replied the doctor. "But why do you ask?"

"Well," replied his anonymous questioner, "I want to send my little daughter down town for some thread if you are not."

Quite Experienced  
Lady (engaging nurse): Have you had any experience with children?  
Applicant: Yis, mum. Shure, Oi used to be a child myself.

CHICAGO HOME RULE  
BILL FAILS TO REVIVE

## Illinois Senate Changes Dates of State Primaries.

Springfield, Ill., June 17.—The Chicago home rule and traction merger bills died a quiet death when the house public utilities committee adjourned without taking action on them. A working quorum did not attend the meeting and Chairman McCormick announced no further attempt would be made to consider the bills.

By a vote of 33 to 1 the senate passed the Curtis bill changing the dates of the primary elections in Illinois.

The measure places the presidential primary on the first instead of the second Tuesday in April, the same date as the Chicago city election and the township elections down state. Under the terms of the bill, the last Tuesday in June is set as the date for the state and congressional primaries, which are now held on the first Wednesday after the first Tuesday in September. However, the provision placing the state primary in June was put in the senate bill only as a tentative arrangement, and may be changed when the measure reaches the house.

The house passed the Lytle bill repealing the present child delinquency act and substituting a new one. The vote was 104 to 1. The bill provides a fine of \$200, imprisonment in jail for one year, or both, for persons taking a male child under seventeen years of age or a female child under twelve, into resorts, policy shops, pool rooms, saloons or gambling rooms.

Biggest Gas Flow Struck. Carlinville, Ill., June 17.—The flow of gas from the well recently brought in at Staunton has been measured by officials of the Ohio Oil company and the capacity found to be a flow of 6,000,000 feet a day. This is the largest well ever found in Macoupin county.

Missing Boy's Body Found in River. Chester, Ill., June 16.—The body of George Stiff, the twelve year old son of Mr. and Mrs. George Stiff, who disappeared from the home of his parents, was recovered from the Mississippi river. The coroner's jury returned a verdict of accidental drowning.

Married 70 Years. Mount Vernon, Ill., June 17.—Mr. and Mrs. David Gray of McClellan township, in Jefferson county, celebrated the seventieth anniversary of their marriage. Mr. Gray is eighty-nine years of age and Mrs. Gray two years his junior.

Dunne Gives Shelter to Orphans. Springfield, Ill., June 17.—Governor Dunne has ordered Adjutant General Dickson to send state tents and cots to Carrollton to house the children of the German orphanage made shelterless when the home burned.

Petrograd Admits Army Has Recrossed Own Frontier.

## 40,000 ARE TAKEN PRISONERS

General Mackensen Reports Immense Captures Since June 12—Situation is Believed More Serious Than Announced After Przemyśl Fall—Petrograd Claims Successes.

Berlin, June 17.—It is officially announced that General Mackensen's army, operating in Galicia, has taken 40,000 Russians prisoners since June 12. Additional German successes all along the southeastern front are claimed.

London, June 18.—Official dispatches from Petrograd announce that the Russian army operating near Czernowitz, the capital of Bukovina, has been driven across the frontier into Russian territory for the first time since the drive upon Warsaw from that general direction was halted early last spring and the general Russian offensive undertaken against Austria.

Give Ground on San.

The official statement says also that, after three days of desperate fighting, the Russians have been compelled to give ground on the right bank of the San, retreating on the Lubaczowka and Wuznia rivers. These Russian defeats, following the Berlin announcement that Mosiska had been captured and three armies were moving forward toward Lemberg, is taken to indicate that the Russian situation is even more serious than was believed after the fall of Przemyśl.

Petrograd Claims Successes. Petrograd, however, declares that on the remainder of the eastern front the Russians have been successful.

**Babylonians Feared Ghosts.**In a lecture on "Burial Customs In  
Mesopotamia and Egypt" Dr. L. W.  
King, F. S. A., said the spirit which  
animated the Egyptians in their varied  
and changing practices toward the dead  
was based on affection and reverence,  
but the Babylonian, in the main, was  
prompted by fear. The Babylonians  
were probably more spook ridden than  
any other nation of antiquity, and their  
magical texts made it clear that the  
most terrible class of spirits were the  
ghosts of the dead, who for some reason  
had been unable to enter the un-  
derworld. Driven by hunger and thirst,  
such a ghost might roam about and  
fasten on any one with whom it had  
had relations in this life, and it would  
plague him until he performed the  
rites that could give it peace. It was  
mainly to lay the ghost and prevent it  
from "haunting" that the Babylonians  
were scrupulous in performing the due  
burial rites.—London Times.**Georgians of the Caucasus.**Though the Russians are the domi-  
nant race in the Caucasus, the aristo-  
crats of the very mixed population of  
that region are the Georgians. A peo-  
ple of mysterious antecedents—their  
race, according to some ethnologists,  
being older even than the Egyptians—  
they stand upon a higher plane of civi-  
lization and culture than any of their  
neighbors. Formerly Georgia was an  
independent kingdom, and its people,  
converted to Christianity in the fourth  
century, have never relapsed into the  
Mohammedanism of the surrounding  
tribes. Their golden age was the  
twelfth century, in the days of the  
great Queen Tamara. Now there are  
no more kings in Georgia, but an am-  
azing number of princes. It is a Russian  
joke that every Georgian, whatever his  
occupation, boasts a title. It might be  
added, with more truth, that every  
Georgian is a poet.—Pall Mall Gazette.**Reason and instinct.**A certain north country miner was  
particularly proud of a clever little dog  
he possessed. At times he was apt to  
claim a little too much for his pet, and  
one morning a neighbor was endeavor-  
ing to point out the difference between  
instinct and reason when an amusing  
interruption occurred. A seedy looking  
tramp turned the corner, and the dog,  
without so much as a word from his  
master, sprang into the road and of-  
fered battle."There you are," laughed the miner  
as the dog snarled and snarled under  
the heels of the tramp. "I don't like  
the looks of the chap. That's instinct."Suddenly the tramp turned and kicked  
the dog into an adjacent field."There you are," ejaculated the min-  
er's friend grimly. "The chap don't like  
the looks of the dog. An' that's reason."

PHONE 177 ROWLAND BROS. DIXON, ILL.**Home Grown Strawberries**will be at their best this and next week (ending the 19th)  
The berries are exceptionally fine, both in size and flavor  
owing to the good weather conditions for ripening.We can not say when the cheapest prices will be made  
but according to outside markets, good berries are low  
enough as the growers can ship at present prices and  
net the usual price here at this writing. And again you  
will find that the few first pickings of a berry patch are  
the finest fruit of the season.The tendency of sugar, jars and tops, is higher. They  
give the same old excuse—the war.

We are still selling at the old price at present.
